P W O E F I O

The screenshot shows the Jira software interface. At the top, there's a navigation bar with icons for Home, Spaces, Recent, and a search bar. To the right are buttons for 'Create' and 'Premium trial'. The main area is titled 'Spaces' and shows 'My Kanban Space'. Below this are tabs for Summary, Timeline, Board (which is selected), Calendar, List, Forms, Goals, and More. A 'Quickstart' overlay is visible on the right side, featuring sections like 'Sort and prioritize with ease' and 'View progress at a glance'. The 'Board' section displays three columns: 'TO DO' (with tasks 'task2' and 'task3'), 'IN PROGRESS' (empty), and 'DONE' (with task 'task1'). Each task card includes a checkbox labeled 'KAN-' and a user icon.

Workflow for موقع عيادة طبية

Diagram Text

Create transition

Transitions connect statuses. They represent actions people take to move issues through your workflow. They also appear as drop zones when people move cards across your project's board.

From statuses: IN PROGRESS → To status: TO DO

Name: baraa

Tip: Name your transition as an action people take to move an issue, like "start work" or "merge".

Example rule

When: Work item created
Rule is run when a work item is created.

Add component

+ Triggers

Triggers kick off the execution of your rule. Triggers will listen for events in Jira, such as when a work item transitions or when a work item is created.

Triggers can also be set to run on a schedule.

Use Rovo Agent to assess work readiness in Jira NEW

When: Work item created
Rule is run when a work item is created.

Issue Type is one of
Task

Then: Use Rovo Agent
Does {{issue.url}} meet our readiness requirements?

And: Add comment to work item
{agentResponse}

Add component

+

Use Rovo Agent to assess work readiness in Jira
TEMPLATE

Rule details

Required fields are marked with an asterisk *

Name * (required)
Use Rovo Agent to assess work readiness in Jira

Description

DEFAULT BEHAVIOR: When a task or user story is created in Jira, a Rovo agent is invoked to analyse the description of the Jira work item and add a comment for the creator.
